HOW TO UPLOAD THE DASHBOARDS/STORIES

Tableau Public

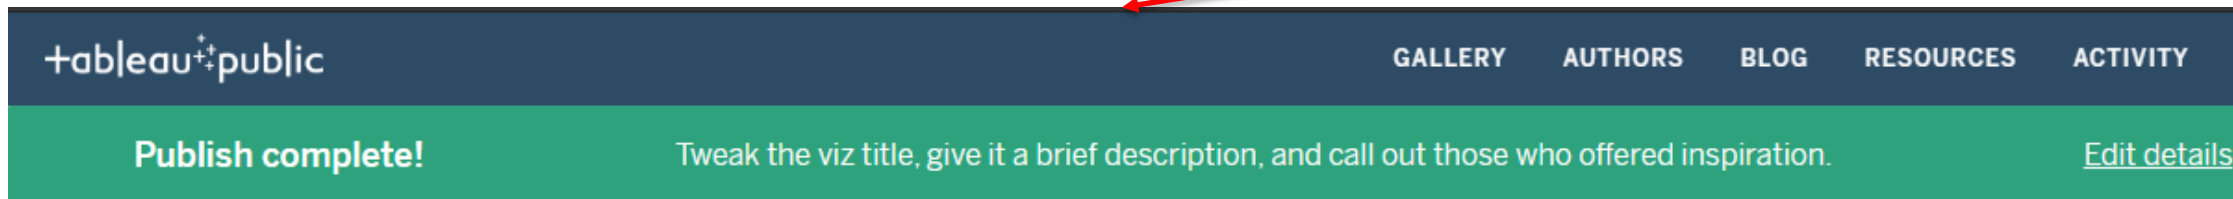

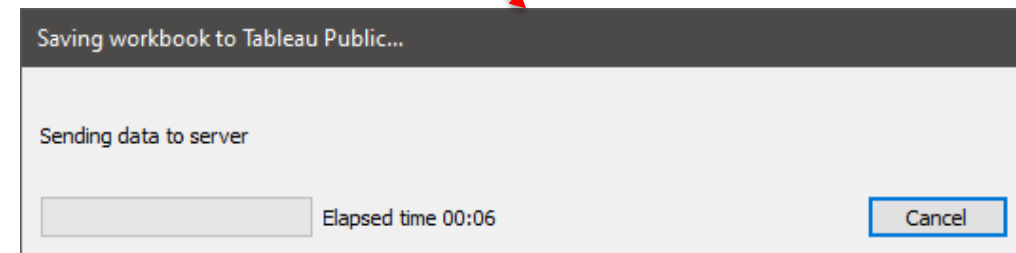

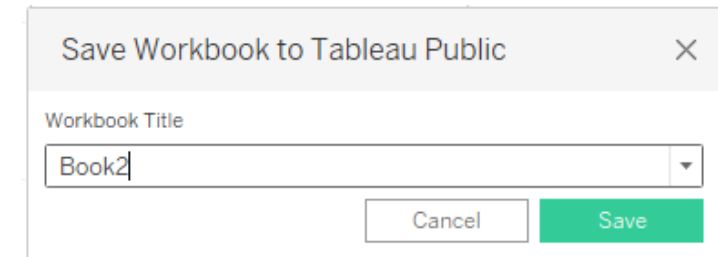

- Step 1: Use a small data source (<15million rows) [link](#)
- Step 2: Make your story/Dashboard
- Step 3: Click on 'File'
 - select 'Save to Tableau Public'
- Step 4: Login to your Tableau Public Account

Note: This is illustrated in Tableau Public 2020.1

Tableau Public

- Step 5: Give the Tableau Workbook the desired Name
- Step 6: It uploads to the Tableau Public Server and open the default browser to show the uploaded file

Tableau Public

- You can also edit your Tableau Workbook online
- Make sure to check the Other Settings if you have to show multiple sheets within the workbook

A screenshot of the Tableau Public settings interface. The header bar is dark blue with the "tableau+public" logo on the left and "GALLERY" and "AUTHORS" links on the right. The main content area has a light gray background and contains several form fields: "Title" with the value "Sample_Test", "Permalink" with the value "http://www.", "Inspiration" with a placeholder "Add URL to a Tableau Public viz or author profile", and "Description" with the value "Sample_Test". Below these fields are two sections of settings: "Toolbar Settings" with three checked checkboxes ("Show view controls Undo, Redo, Revert", "Show author profile link", "Allow workbook and its data to be downloaded by others") and "Other Settings" with one checked checkbox ("Show workbook sheets as tabs"). At the bottom right are "Cancel" and "Save" buttons.

Tableau Public

- You can download Tableau Workbook from Tableau Public Online in .twbx format which can be viewed in Tableau Public and [Tableau Reader](#)

Sharing the Tableau Link

- Please copy the Public Link and paste it in a Word Document
- Please do check the pasted link works
- Also, the link should work in the incognito mode as well

- Upload that word document in Olympus under your DVT project. There is no need to mention summary.

Incognito in Google Chrome: 'ctrl+shift+N' and paste the link and check
